Surgery Cancellation Policy

Providing superior medical care to our patients is our main priority at the Women’s Center for Pelvic Health. We take great pride in our work and feel it is our responsibility to you as the patient to be able to select a surgical date that is mutually agreeable to you and your provider. Our surgeons limit the number of surgeries per day to assure focused attention to your needs.

If your provider recommends surgery and you elect to proceed, we ask that you be certain of the surgical date before agreeing to be scheduled. Cancelling your surgery with less than 30 days’ notice greatly impacts our patients, doctors and staff. If you cancel in less than 30 days, the following penalties are applied:

- **Laparoscopic/robotic surgery**: $500 fee
- **Vaginal surgery**: $250 fee

These penalties will be billed to you and not your insurance company.

I understand that cancelling my surgery less than 30 days before my scheduled date will impose the above penalty fee. I am personally responsible for paying this bill and not my insurance company.
